

Hi All,

**105**, Not a bad score at darts, a very good cricket score by a batsman and a nice

temperature. Also a record attendance at an **ASMK** session, that is how many attended this month.

The aim is not to have as many people attending as possible more to provide Adaptive Snowsports to as wide a spectrum as possible, delivering a very professional, polished, diligent, enjoyable and safe environment to learn in. As the session numbers increase none of the mentioned qualities are jeopardised.

This is due to the fact that all of the volunteers are an unselfish bunch of amazing people who give up their free time and pay their own costs to help Adaptive skiing. Many of you who come to ASMK have already attended another Adaptive group that day and when I see you before our session you all look shattered, but afterwards the look on your faces is one of pure satisfaction and the adrenaline you are feeling is something immeasurable.

I am a critical person with very high standards (expect in women, sorry Bridget!) but as I look back on these ASMK nights I am completely satisfied by everything and everybody. This is credit to you all!

Bridget and I are very lucky, proud and honoured to be associated with such an extraordinary bunch of people who share the same passion for Adaptive skiing.

# THANK YOU
