RE BOB BLACK BUILDER

To whom it may concern,

Bob Black has worked for me on numerous occasions over the past two years. He has been largely responsible for the complete restoration of my home, which is a substantial late Georgian Rectory as well as numerous jobs for my companies. Throughout this period I have been continually surprised and delighted by the quality and diligence of Bobs' work.

He is a highly responsible individual, genuinely dedicated to doing the best possible job. He is extremely well equipped to carry out virtually all building jobs and his team is first class. They are both skilful and, for this day and age, extremely tidy in the way they work.

It is very refreshing to have found a builder who puts customer satisfaction and his reputation before short term gain. He is determined to build up his company on a sound basis, in which he is being very successful.

I have no reservations whatsoever in recommending him to you in the highest terms, save for the fact that I have several more jobs I would like him to do for me!

In short, I have never encountered better.

Yours sincerely,

Dr C.A. Keightley  
Managing Director
