Headmaster - Mr. M.D. Catton

6th September 2007.

To whom it may concern.

Dear Sirs,

This is a very special company which listens to the customer and will offer their expert advice. The Company/staff care and drive towards and reach a very high standard. I have found them all to be like a family, a family that you can trust and get to know.

This particular project was a very difficult one in terms of timescale and build and yet the directors and staff worked enormously long hours in a very short space of time to bring the build in on time for the children to be able to start school. They have my full praise.

The Directors' high standards obviously are reflected in their staff. Their standard of work is never compromised, they constantly aim for high standards which they achieve through careful planning, quality staff /contractors and hard work.

They have also taken into account the local community and have been courteous, friendly and been willing to help out at any opportunity. This too makes them special.

A very, very special company who I would recommend without hesitation.

Yours faithfully,

M.D. Catton
Headteacher
