To whom it may concern:

BOB BLACK CONSTRUCTION LTD.
25 Appletrees, Bar Hill, Cambridge CB3 8SJ

This is a testimonial for the firm of Bob Black Consturction Ltd., based on the work carried out in building a loft extension at the above address, over the period from August to December, 1996.

The execution of the work was so satisfactory, in every way, that it would be difficult to imagine its being done better. The firm has wide experience of this type of extension, and it was therefore not unexpected that the technical standard of the work was very high indeed, although some of the requirements of the job were decidedly difficult. In addition, Bob Black's collaboration with our chosen architect, Emma Adams of Great Wilbraham, was everything that we had hoped for: communication was prompt and frequent, and relations were very harmonious throughout. A very difficult period of negotiation with our neighbours, who considered themselves adversely affected by the extension, was also handled with great skill and discretion.

Another feature to which I would draw attention was the extremely good relations between Mr. Bob Black and his own work-force. They were all courteous and considerate to my wife and myself during the period of the work, but what struck me was how much they appreciated his energetic participation at every stage. This excellent team-work, I believe, was the secret of their successful performance.

I would recommend Bob Black Construction Ltd., without hesitation, to any future client who is considering employing their services.
